PRODUCT PORTFOLIO

Equipment Built Around Real Working Conditions

Deling supplies a focused range of material-handling and construction equipment with configurable capacity, mast, tire, attachment and export requirements.

1.5-10 t DIESEL FORKLIFT RANGE	2.5-3.5 t FEATURED ELECTRIC RANGE	6 CORE PRODUCT CATEGORIES
Diesel Forklifts Counterbalanced forklifts for factories, warehouses, logistics yards and outdoor loading.	Electric Forklifts Battery-powered equipment for indoor logistics, factories and clean operating environments.	
Rough Terrain Forklifts High-clearance, large-tire forklifts for farms, construction sites and uneven yards.	Electric Pallet Trucks Compact horizontal pallet movement for warehouses, trucks and containers.	
Electric Pallet Stackers Stacking and short-distance transport for warehouse aisles and production areas.	Concrete Delivery Pumps Trailer-mounted concrete delivery solutions for building and small commercial projects.	
CONFIGURATION SUPPORT Tell us the rated load, lifting height, fork length, tire type, operating surface, attachment, destination country and emission requirement. We will match the quotation to the application.		

DIESEL FORKLIFT RANGE

K Series and H Series Diesel Forklifts

From compact 1.5 ton machines to heavy-duty 10 ton forklifts, the range supports pallet handling, machinery movement, building materials and industrial yard logistics.

Series	Models	Capacity	Fork length
K Series 1.5-2.5 Ton Diesel Forklift	CPC15 / CPC20 / CPC25	1.5-2.5 Ton	920-1070 mm
K Series 3.0-3.8 Ton Diesel Forklift	CPC30 / CPC35 / CPC38	3.0-3.8 Ton	1070 mm
K-40 4 Ton Diesel Forklift	CPC40 / K-40	4.0 Ton / 4000 kg	1070 mm standard; custom length available
K-45 4.5 Ton Diesel Forklift	CPC45 / K-45	4.5 Ton / 4500 kg	1070 mm standard; custom length available
H Series 4.5-5 Ton Diesel Forklift	CPC45 / CPC50 H Series	4.5-5.0 Ton	1070 mm
K Series 5-7 Ton Heavy Duty Diesel Forklift	CPCD50 / CPCD60 / CPCD70	5-7 Ton	1220 mm
K Series 8-10 Ton Heavy Duty Diesel Forklift	CPCD80 / CPCD100	8-10 Ton	1520 mm

K Series 1.5-2.5 Ton
Compact diesel forklift range

K Series 3.0-3.8 Ton
Medium-duty diesel handling

K-40 4 Ton
Featured 4 ton model

K-45 4.5 Ton
Industrial handling model

K Series 5-7 Ton
Heavy-duty yard handling

K Series 8-10 Ton
High-capacity industrial work

FEATURED MODEL

K-40 4 Ton Diesel Forklift

A practical medium-to-heavy-duty counterbalanced forklift for factory transfer, warehouse loading and logistics-yard operations.

4,000 kg RATED CAPACITY	500 mm LOAD CENTER	1,070 mm STANDARD FORK
-----------------------------------	------------------------------	----------------------------------

Specification	Reference value
Model / series	CPC40 / K-40
Overall length	4000 mm with fork / 2930 mm without fork
Overall width	1290 mm
Wheelbase	1900 mm
Minimum turning radius	2710 mm
Fork size	1070 x 150 x 50 mm
Operating weight	4950 kg
Engine reference	Quanchai 4C4-50V31

- **Wide-view mast.** Supports better load visibility during pallet engagement and placement.
- **High-position air intake.** Helps reduce dust exposure around the engine.
- **Heavy-duty transmission.** Supports stable power delivery for industrial applications.
- **Configurable equipment.** Mast, tire, cab, side shifter, fork positioner and fork length options are available subject to quotation.

ELECTRIC EQUIPMENT

Electric Forklifts and Warehouse Handling Equipment

Electric models are suited to warehouses, factories and logistics operations where low local emissions, lower operating noise and responsive handling are important.

**CPD-25**

2.5 ton electric forklift

**CPD-30**

3.0 ton electric forklift

**CPD-35**

3.5 ton electric forklift

**CBD20**

Electric pallet truck

**CDD-15**

Electric pallet stacker

Product	Typical application	Selection points
CPD-25 2.5 Ton Electric Forklift	Warehouse and factory pallet handling	Load center, aisle width, battery, charging, mast height
CPD-30 3 Ton Electric Forklift	Production logistics and loading areas	Battery capacity, tire, attachment, shift length
CPD-35 3.5 Ton Electric Forklift	Heavier indoor and mixed-yard work	Residual capacity, mast, charging schedule
CBD20 Electric Pallet Truck	Truck loading and warehouse transfer	Travel distance, fork dimensions, battery type
CDD-15 Electric Pallet Stacker	Pallet stacking in warehouse aisles	Lift height, lowered mast height, aisle width

OUTDOOR HANDLING

Rough Terrain Forklifts

Designed for uneven surfaces, open yards, farms and jobsite material handling where traction and ground clearance are more important than narrow-aisle performance.

Rough terrain forklift for outdoor and uneven-ground applications

Large pneumatic tires Support traction and ride comfort on compacted soil and uneven yards.	Higher ground clearance Helps the machine work over rougher surfaces and site transitions.
Outdoor-oriented chassis Built around stability, visibility and practical service access.	Configuration review Capacity, tire, mast and attachment must be selected for the actual terrain and load center.

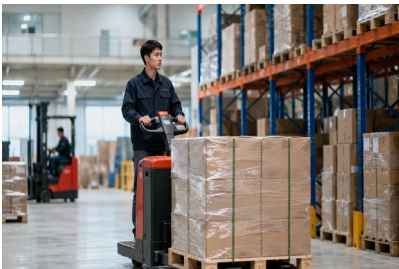

Common Industries and Working Scenarios

Our quotation process starts with the work, not only the model number.

Loading-dock and container operations

Scenario	Recommended equipment	Key questions
Warehouse pallet handling	Electric forklift, pallet truck, stacker	Aisle width, lift height, shift duration, charging
Factory material transfer	Electric or diesel forklift	Load size, floor condition, production cycle
Container loading	Forklift or pallet truck	Container height, fork length, ramp and dock condition
Outdoor industrial yard	Diesel or rough terrain forklift	Surface, slope, tire, weather and emission rules
Building materials	Heavy-duty diesel forklift	Load center, residual capacity, attachment
Concrete projects	Trailer concrete delivery pump	Output, distance, aggregate, pipe route and power source

Warehouse Pallet Handling
Indoor pallet movement and stacking

Container Loading
Loading bays, trucks and containers

Outdoor Yard Handling
Uneven ground and rough terrain

Factory Material Transfer

Raw material and finished goods movement

Construction Site Handling

Jobsite material handling support

Concrete Pumping

Building-project concrete delivery

NEXT STEP

Send load weight, dimensions, lift height, working environment, daily hours and destination country to sales@delingequipment.com. Content and images are based on delingequipment.com; final specifications are confirmed in the quotation.
